VOLUME LIII.

IRONTON, MO., THURSDAY, JULY 31, 1919.

NUMBER 9.

## From Near Arcadia Heights.

Everything out here is very quiet since the Baptist Assembly closed. We miss the "honk" of the car and the great number of people that went daily to and from the Assembly grounds, which for two weeks looked very much like a little city in the "forest primeval." But to-day there are only two or three families remaining, and consequently everything now assumes the aspect of Goldsmith's "Deserted Village."

The Assembly was a success from beginning to ending, and not a thing occurred to mar the peace and happiness of those who attended. We have been reliably informed that great improvements will be made in the way of new and improved buildings before the next Assembly convenes, and that the time of holding the meetings has been changed back to August for next year. That is as it should be. People generally complimented J. D. Vance for the manner in which he conducted the ground management, and for the condition of the grounds, buildings, tents and water supply. The Lopez store, under the very able management of S. P. Ringo, did very much for the comfort and convenience of those who camped on the grounds.

The prospects for farmers out here are certainly very gloomy. The drouth which has prevailed here since May, with only one or two light showers, is yet unbroken. Corn is a complete failure and millet will not be worth cutting. This, in face of the fact that crops were a complete failure last year, will make it very hard on the farmers again the coming winter, particularly those who were so unfortunate as to have no hay on their farms. But for the man who has to pay cash rent, and will not raise anything at all, it is a very serious proposition, indeed. Only two good crop years in nine years is the record in this valley. But they say where a man loses a thing is the proper place to look for it. Truly, God's ways are mysterious and hard for one to understand, and often put one's faith almost to the limit of its tension.

Harry Dinger recently purchased a buggy and also a fine cow.

Jno. T. Patterson made a trip last Thursday to his farm, near Roselle. Corn in that locality will be a failure, but the hay crop was never better, and there will be considerable mast—mostly post oak and black oak.

Mollie Burdeck, of St. Louis, spent two weeks, not long ago, visiting her parents, Mr. and Mrs. J. T. Patterson. Mrs. Trechmacher and daughter, Miss Florence, will return to St. Louis this week.

John Hendley last week sold his farm near here. Consideration, \$1,000. We did not learn the name of the purchaser, but his family has removed thereto.

While the last General Assembly failed to pass any law that would materially benefit the teachers (from a financial point of view) we note with pleasure that they did pass a compulsory school law that will produce tangible results. Every boy and girl between the age of six and fourteen, must attend school every day until they have completed the eighth grade. This law will be enforced to the letter, too.

J. L. Logan of Bellevue was in Ironton Friday.

## Compulsory Attendance Law.

The compulsory attendance school law passed by the last Legislature provides that every child between the ages of seven and fourteen shall attend school regularly for the entire term, and between the ages of fourteen and sixteen they must attend unless actually, regularly, and lawfully employed for at least six hours each day in some useful employment or service. As a means of enforcement, this law provides for a County Attendance Officer being selected by the County Superintendent of Schools, placed under a bond of \$1000 and being paid a salary not to exceed \$1.00 per day for each day actually engaged in the discharge of his duties and his actual expenses incurred. This attendance officer is appointed for the entire County and has authority to arrest and place in school, children who are not in attendance. He may bring action against the parent or guardian in any court of competent jurisdiction. The following children are exempt: those mentally or physically incapacitated or those who have completed the common school course.

Beginning September 1st, the teachers of Iron County will be required to make a weekly report of those pupils who are not attending school and give reasons why they are

not attending. Those reports are to be filed with the County Superintendent who in turn will turn over to the County Attendance Officer. The attendance will then proceed to place the children in school. The law requires the clerk of the district to furnish the teacher with a copy of the enumeration list which will inform the teacher of the number of names of the children of the district. Blank reports will be printed and sent to the teachers for the purpose of notifying the Attendance Officer.

## Penalty For Delinquents.

George H. Moore, Collector of Internal Revenue for the First District of Missouri, has issued the following statement:

It is my desire to issue a final notice to tax payers liable under Title X of the Act of 1918, who have not yet made return to this office and paid the taxes due of them.

Owners or proprietors of certain businesses, if they have operated such business at any time during the month of July, 1919, must make application for special stamp, covering such operation, to this office and pay taxes due, on or before the last day of July, 1919, in order to avoid being penalized.

Application for special stamp to operate the following businesses should be made on Form 11:

Brokers, Pawnbrokers, Shipbrokers, Custom House Brokers, Manufacturers of Tobacco, Cigars and Cigarettes, Theatres and picture shows, Circuses, Public Exhibitions, Bowling Alleys, Pool Rooms, Shooting Galleries, Riding Academies.

Application for special stamp to operate the following businesses should be made on Form 732:

Owners or Operators of Passenger automobiles for hire.

Owners or Operators of Pleasure Boats.

Application for special stamp to operate under the Harrison Narcotic Act, as amended, should be made on Form 678. Under this title are the following:

Importers, manufacturers, producers or compounders of Narcotics. Wholesale Dealers in Drugs containing Narcotics.

Retail Dealers or Druggists.

Physicians, Dentists, Veterinary Surgeons, and other practitioners.

Application forms have been mailed to all those who have previously paid taxes. If any of these taxpayers have not received their forms, or if any of the above-mentioned forms are desired by any person just beginning to operate one of the above mentioned businesses, application should be made to this office at once, and the forms will be furnished.

The application, duly executed on one of the above mentioned forms, must be in this office, with remittance to cover by MONEY ORDER OR DRAFT, on or before the last day of JULY, 1919, in order to avoid a penalty of 25 per cent.

On the first day of August, 1919, the penalty is assessed automatically, and the Collector has no control over it, and no power to remit the penalty.

## Start the Bluegrass Pasture this Fall.

"How may a bluegrass pasture be started on fertile tillable land?" This question is often asked of the University of Missouri College of Agriculture. Perhaps the best reply will be found in Extension Circular 68, by W. C. Etheridge. He says:

Sow Timothy and bluegrass with wheat in the fall, adding clover the following spring. After two years of clover and timothy for hay, the land is pastured and the bluegrass fills the sod as the timothy disappears. The acre rates of seeding should be about 8 to 10 pounds of timothy, 6 pounds of bluegrass, and 6 to 8 pounds of clover, using highgrade seed. If it should be desired to turn unusually clean, fertile land into pasture, a sod could be made somewhat more quickly by omitting the wheat and sowing the grasses and clover without a nurse crop. In this case 10 to 15 pounds of bluegrass seed would be sown to the acre.

On land too dry and poor for bluegrass, but which may produce a fair growth of other grasses, a mixture of 5 pounds of redtop, 10 pounds of orchard grass and 4 pounds of alsike clover is recommended. If a cheaper mixture is wanted the redtop seed may be omitted.

On all types of untillable land the spring seeding of pastures almost invariably gives better results than fall seeding, unless the soil is so weedy that fall seeding is necessary to give the grass an early start in competition with the spring growth of weeds.

No preparation of the soil is necessary, other than burning the leaves or other dead plant matter; but after the seed is sown it should by all means be harrowed or brushed into the soil, if the land is clear enough to allow the passage of the implement. It must be understood, however, that a pasture seeded in the spring will yield but little return the first season, unless the soil is very fertile and weather conditions are favorable. If it is necessary to begin grazing by early summer the grass should be sowed with rye or oats, which will furnish considerable pasturage during May and June.

The quicker growing grasses, timothy, rye grass, redtop and orchard grass, are seeded with bluegrass to furnish pasturage while the slow-growing blue grass is developing. It is also wise to provide against a possible failure of the bluegrass by including other grasses which might prove themselves better adapted to the soil. Two to five years are required for bluegrass to fill the sod, depending upon the fertility of the land and the persistence of the other grasses in the mixture. Under favorable natural conditions there seems to be no limit to its time endurance. But sometimes without any permanent change in natural conditions, the pasture becomes foul with weeds and brush and is thereby made much less productive.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, etc.

Hall's Family Pills for constipation.

Opening of the Southeast Missouri State Teachers' College September 1st 1919.

The College was, by Act of the Fiftieth General Assembly of Missouri, approved by the Governor on May 20, 1919, made the Southeast Missouri State Teachers' College. The College invites the attention to the advantages offered in the institution.

Do you want an education for business?

Do you want a thoroughly practical college education?

Do you want to enter a college that seeks to fit every student to do some useful work in life?

Do you want to attend a college where the cost of a year in school is about one-half the cost in most colleges?

Do you want a commercial education that will prepare you for a government position or other office work?

Do you want to prepare to teach the commercial branches in high schools and colleges?

Do you want to prepare to teach Domestic Science and Household Arts in vocational high schools?

Do you want to prepare to teach Agriculture in vocational high schools?

Do you want to prepare to do expert work in farm management?

Do you want to prepare for a position in the Mechanical Trades, either as vocational high school teacher or shop foreman?

Do you want the best education in Music at a small cost, including Piano, Violin, Band, and Voice?

If you want any of these advantages, enter the Southeast Missouri State Teachers' College September 1, 1919.

For further information or catalogue, address

W. S. DEARMONT, President.

## Missouri Ores.

JEFFERSON CITY, Mo., July 4.—That Missouri is a copper producing state is indicated by the fact that the 1919 output of this ore totaled 242,232 pounds, the same, at 24.7 cents a pound, having a market value of \$59,723, announces advance information of the 1918 Red Book of the Missouri Bureau of Labor Statistics.

The bulletin further states that while this production of copper ore is small when it is compared to the 1918 production of other regular huge copper producing states, yet that small copper deposits are native to Missouri emphasizes the boast of Missourians when visiting in other states, that every necessary metal of value, with the exception of platinum and uranium, is found in Missouri, including

## PRINCE ALBERT

the national key smoke

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. That's because P. A. has the quality!

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and—that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

gold, silver and tungsten, and that the state leads all other states in quantity and worth of its annual production of both lead and zinc, not to mention such other metallic substances as nickel and cobalt, barytes, tripoli and that it also ranks high in its extensive soft coal and iron deposits.

The copper ore deposits are known to exist in Franklin, Ste. Genevieve, Madison, Jefferson, St. Francois and one of the other counties of the northeastern portion of the Ozark regions.

The 1913 output of copper ore, Missouri, totaled 575,204 pounds; that of 1914, only 53,510 pounds; 1915, 318,406 pounds; 1916, 377,575 pounds and 1917, 407,141 pounds. The war brought on an increased demand for Missouri copper ore, and there was a short advance, owing to this abnormal demand, in the price per pound of the mineral.

A. T. EDMONTON,

Supervisor of Statistics, Bureau of Labor Statistics.

## Daily Thought.

Patience and a mulberry leaf will make a silk gown.—A Chinese inscription.

## Good Training.

"Flighdub runs his new car with extreme caution." "Yes, he's been used to running a baby carriage."

## A Thorough Test

One To Convince the Most Skeptical Ironton Reader.

The test of time is the test that counts.

Doan's Kidney Pills have made their reputation by effective action. The following case is typical. Ironton residents should be convinced.

The testimony is confirmed—the proof complete.

Testimony like this cannot be ignored.

Anderson Rust, Ironton, says: "I was badly in need of something that would relieve me of lameless and aching in my back. The kidney secretions were too frequent in passage, especially at night and sometimes accompanied by pain. A short use of Doan's Kidney Pills, which I got at the Arcadia Valley Drug Co., entirely cured me."

## NO TROUBLE SINCE

Over three years later Mr. Rust said: "I have never had any return of kidney complaint and am as strong in praise of Doan's Kidney Pills now as ever."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Rust had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—Adv.

## Weather Report.

Meteorological Report of Cooperative Observer at Ironton, Iron County, Mo., for the week ending Monday, July 21, 1919:

Days of Week.	Temperature		Precipitation
	Day of Month	Lowest	
Tuesday.....	15	91	61
Wednesday.....	16	87	55
Thursday.....	17	87	52
Friday.....	18	91	56
Saturday.....	19	93	60
Sunday.....	20	95	61
Monday.....	21	97	62

NOTE.—The precipitation includes rain, hail, sleet and melted snow, and is recorded in inches and hundredths. Ten inches of snow equal one inch of rain. "T" indicates trace of precipitation. ARCADIA COLLEGE Observer.

## STOMACH TORN UP

Indiana Lady Describes Condition, Which She Says Was Due To Constipation and Tells of Relief Obtained From Black-Draught.

Scottsburg, Ind.—Mrs. Annie Johnson, of this place, writes: "I well remember I suffered for a time with constipation, which would get me down. I took doctors' medicines and any number of purgatives. They would leave me in a worse condition than I was before taking, and my stomach so upset.... I know once I suffered... from constipation, I was so ill we had to have the doctor, just so nervous and feverish. The doctor said I would have to quit medicines, my stomach was so bad...."

My husband was reading and found something about Thedford's Black-Draught and brought me a package to try. I used it regularly at first until I began to feel better, then I used just a dose occasionally. I was cured of this constipation and am sure the Black-Draught did it."

If your stomach is out of order, you will suffer from such disagreeable symptoms as headache, biliousness, indigestion, etc., and unless something is done, serious trouble may result. Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, helping to regulate the liver and to cleanse the bowels of impurities.

Try Black-Draught. EB-15

State of Missouri, ss

County of Iron. ) ss

Arthur Huff, plaintiff,

vs.

William H. Johnson, William H. Johnston, Jefferson Johnston, George W. Johnston, George W. Johnson, William Alcorn, Michael Seitz, A. J. Haus, Mary Staab, Franz Dinger, James Loftis, Bernard Zwart, Conrad C. Zeigler, Albert J. Zwart, Elvis Harrison and W. P. Harral, and the unknown consorts, heirs, devisees, donees, alienors or immediate, means or remote, voluntary or involuntary grantees of each of the following named persons, viz.: William H. Johnston, William H. Johnston, Jefferson Johnston, George W. Johnston, George W. Johnson, William Alcorn, Michael Seitz, A. J. Haus, Mary Staab, Franz Dinger, James Loftis, Bernard Zwart, Conrad C. Zeigler, Albert J. Zwart, Elvis Harrison, and W. P. Harral, defendants.

The State of Missouri to the above named or described defendants—Greetings:

You are hereby notified that an action has been commenced against you in the Circuit Court of the County of Iron, in the State of Missouri, affecting the title to the following described lands and tenements, to-wit:

The northwest quarter of the northeast quarter; the south half of lots two (2) and three (3) of the northwest quarter; and lots three (3) and the south half of lot two (2) of the southwest quarter—all in section seven (7), and the north half of lots one (1) and two (2) of the northwest quarter of section eighteen (18)—all in township thirty-three (33), north, range three (3) east of the 5th P. M., containing 285.28 acres—all in Iron county, Missouri;

Which said action is returnable on the first day of the next term of said Court to be held at the Court House in the City of Ironton, in the County and State aforesaid, on the 6th day of October, 1919, when and where you may appear and answer or otherwise defend such action; otherwise plaintiff's petition will be taken as confessed and judgment rendered accordingly. Witness my hand and seal of Court (SEAL) at office in Ironton, Mo., this 19th day of July, 1919.
